

Appendix a. xi.

Self- Assessment and Verification of Competency  
Newborn Hyperbilirubinemia

Name: \_\_\_\_\_ Unit \_\_\_\_\_ Date \_\_\_\_\_

Care Components	Self-Assessment Rating	Knowledge	Skill	Judgment
<b><i>Nursing Accountability</i></b>				
Understands policy and procedures pertinent to unit/facility				
Awareness of AAP, NANN, and JCAHO statements				
Lines of authority (chain of command)				
<b><i>Newborn Assessment and Treatment</i></b>				
Risk Factors				
Physical Assessment				
Gestational Age Assessment				
Lab values				
Phototherapy <ul style="list-style-type: none"> <li>• Procedure</li> <li>• Side Effects</li> </ul>				
Exchange Transfusion <ul style="list-style-type: none"> <li>• Procedure</li> <li>• Side effects</li> </ul>				
<b><i>Breastfeeding</i></b> <ul style="list-style-type: none"> <li>• Positioning of infant on breast</li> <li>• Signs of adequate intake</li> <li>• Feeding routine</li> </ul>				
<b><i>Discharge follow-up</i></b> <ul style="list-style-type: none"> <li>• Appt. with provider</li> </ul>				
<b><i>Patient Education</i></b>				

Self-Assessment

1 = Can perform independently (needs validation only)

2 = Need practice prior to validation

3 = Need to learn and practice prior to validation

Method of Learning

R = Read

LM = Learning module

O = Observation

CA = Class attended

D = Demonstration

CAI = Computer assisted inst

Method of Evaluation

RD = Return Demonstration

WA= Written Assessment

V = Verbalizes understanding

PO = Preceptor Observation

CA = Chart Audit

PCS = Patient Care Scenario
