

G) Website on quality improvement in HIV care:

<http://NationalQualityCenter.org>

Key elements of the website include:

- * Quality improvement resources for varying levels of expertise, including: QI publications, indicator descriptions, Part-specific assessment tools, and training slides
- * Ryan White quality management requirements and HAB expectations
- * Tools and best practices from peer HIV providers and the capability to submit tools for posting
- * Opportunities for peer communication and learning
- * Easy access to all NQC services including the Quality Academy and registering for upcoming TOT sessions and national technical assistance calls
- * Calendar of NQC's quality events and trainings
- * Powerful search functions to identify the resources you need

The National Quality Center is funded by the Health Resources and Services Administration (HRSA) HIV/AIDS Bureau through a cooperative agreement with the New York State Department of Health AIDS Institute.
