

## Appendices

Appendix	A Data Submission Timeline
Appendix	B Logs
Appendix	C Bacterial Pathogens
Appendix	D Surgery Codes for Item 43
Appendix	E Birth Defect Codes for Item 49
Appendix	F OSHPD FACILITY CODES
Appendix	G Calculation Charts for Date of Day 28
Appendix	H Calculation Charts for Date of Week 36 (please use new calculator tool)
Appendix	I Day Number Chart
Appendix	J Fahrenheit to Centigrade Conversion Table
Appendix	K HRIF Medical Eligibility Criteria
Appendix	L CPQCC Satellite NICU MEMO

**\*Appendices G-J was adapted from a log developed by Vermont Oxford Network\***

## Appendix A - Data Submission Timeline (Please see 2017 Finalization Guideline for more details)

### January 1, 2017

- Start using new on-line form for infants born in 2017. Centers who submit electronically must submit files using the 2017 EDS specifications.

### January 8, 2017

- Deadline for submitting data to be included in the Fourth Quarter Report for 2016.

### January 31, 2017

- **CPQCC BAAs due to be submitted.**

### January 2017

- Fourth Quarter Report for 2016 available on-line ([www.cpqccdata.org](http://www.cpqccdata.org)).
- CPQCC Data Center releases 2017 Data Finalization Guidelines. Requires confirmation receipt of e-announcement from Data Contact.

### February 1, 2017

- **CPQCC Membership payments due (payments NOT received by this date will result in a \$300 late fee).**

### April 1, 2017 at 11:59 pm

- Deadline for submission of CPeTS items C.1 through C.33 and Admission/Discharge items 1 through 52 for all infants born in 2016; Updated data for all Still In-House infants born in 2015.
- Deadline for submission of the CPQCC/VON Contact Report and the 2016 VON Membership Survey (submitted on-line at [www.vtoxford.org](http://www.vtoxford.org)). All deliverables are now submitted on-line.
- Deadline for on-line submission of the 2014 CCS Supplemental Forms and reviewing the Draft CCS Report Deadline for accuracy.

### April 8, 2017

- Deadline for submitting data to be included in the First Quarter Report for 2017.

### April 8, 2017

- CPQCC Data Center Deadline for completing finalization of all data to be included in the VON Database and the Annual NICU Quality Management Report for 2017.

### June 1, 2017 at 11:59 pm

- Deadline for submission of ALL CPQCC records for 2014 and prior years, which must be complete and 100% error free to be included in the Annual CCS Final Report for 2014, VON NICU Quality Management Report for 2014, the Annual CPeTS Report for 2014, and the Annual CPQCC Web Report for 2014.
- The CCS Final Reports are all rerun and finalized.

### June 2, 2017 from 12:00 am until 6:59 am

- The Final CCS Reports are available to be confirmed.

### June 2nd at 7:00 am until June 7th at 11:59 pm

- Members are given a six-day window to confirm their Final CCS Report. The Confirmation Button will be enabled ONLY during this time frame. **NOTE: The CCS Final Reports will be submitted to CCS on behalf of CPQCC Members.**

### July 8, 2017

- Deadline for submitting data to be included in the Second Quarter Report for 2017.

### July 2017

- Second Quarter Report for 2017 available on-line ([www.cpqccdata.org](http://www.cpqccdata.org)).

### September 2017

- Annual VON NICU Quality Management Report for 2016 available for Centers with finalized 2016 data.

### October 2017

- Annual CPQCC Web Report for 2016 available on-line ([www.cpqccreport.org](http://www.cpqccreport.org)) for Centers with finalized 2016 data.

**October 8, 2017**

- Deadline for submitting data to be included in the Third Quarter Report for 2017.

**October 2017**

- Third Quarter Report for 2017 available on-line ([www.cpqccdata.org](http://www.cpqccdata.org)).

**January 8, 2017**

- Deadline for submitting data to be included in the Fourth Quarter Report for 2017.

**Please submit a ticket to the [CPQCC Help Desk](#) with any comments or questions.**

## Appendix B - Logs

**CPQCC PATIENT LOG 2017**  
**PATIENT LOGS INCLUDE PROTECTED HEALTH CARE INFORMATION FOR YOUR INTERNAL USE ONLY**  
**DO NOT SUBMIT TO CPQCC**

Center Number \_\_\_\_\_

Center Name \_\_\_\_\_

CPQCC Network ID Number	Patient's Name	Medical Record Number	Birth Date (MM/DD/YYYY)	Birth Time (00:00) AM/PM	Eligibility: A. 401-1500g OR B. GA 22/0-31/6 OR C. >1500g and one of the following: Death, Surg, <u>Intubated Assisted Vent &gt;4 continuous hrs</u> , Early Sepsis, Acute Transport in/out, Previously discharged home and readmitted for Total Serum Bilirubin of =>25mg/dL and/or exchange transfusion OR Nasal IMV/SIMV (or any other form of non-intubated assisted vent) for >4 continuous hours.	Admission/Discharge Form Date Sent (MM/DD/YYYY)	DR Death Form Date Sent (MM/DD/YYYY)	Transport Form Required? (Y/N)

\*This form was adapted from a log developed by Vermont Oxford Network

## PATIENT IDENTIFICATION WORKSHEET FOR INFANTS BORN IN 2017

Please use this and the Length of Stay Calculation Worksheet (on the following page) to calculate data elements reported on your 2017 forms.

*Admission/Discharge Form  
Transport/Post-Transport Form*

Please use the Delivery Room Death forms for infants who meet the Delivery Room Death Criteria. Refer to the CPQCC Manual for 2017 when completing worksheets and forms.

***Do Not Submit This Worksheet to CPQCC  
Keep on File at Your Center***

W1. Patient's Name: \_\_\_\_\_

W2. Mother's Name: \_\_\_\_\_

W3. Patient's Medical Record Number: \_\_\_\_\_

W4a. Date of Birth:  $\frac{\quad}{MM} / \frac{\quad}{DD} / \frac{\quad}{YYYY}$  W4B. Time of Birth  $\_ \_ : \_ \_ AM/PM$

W5. Date of Admission:  $\frac{\quad}{MM} / \frac{\quad}{DD} / \frac{\quad}{YYYY}$

W6. Date of Day 28:  $\frac{\quad}{MM} / \frac{\quad}{DD} / \frac{\quad}{YYYY}$

W7. Date of Week 36:  $\frac{\quad}{MM} / \frac{\quad}{DD} / \frac{\quad}{YYYY}$

W8. Date of Initial Discharge, Transfer or Death:  $\frac{\quad}{MM} / \frac{\quad}{DD} / \frac{\quad}{YYYY}$

W9. Date of Final Discharge or Death:  $\frac{\quad}{MM} / \frac{\quad}{DD} / \frac{\quad}{YYYY}$

## Appendix C - Bacterial Pathogens (For Infants Born in 2017)

1. *Achromobacter* species [including *Achromobacter xylosoxidans* (also known as *Alcaligenes xylosoxidans*) and others]
2. *Acinetobacter* species
3. *Aeromonas* species
4. *Alcaligenes* species [*Alcaligenes xylosoxidans* and others]
5. *Bacteroides* species
6. *Burkholderia* species [*Burkholderia capeczia* and others]
7. *Campylobacter* species [*Campylobacter fetus*, *C. jejuni* and others]
8. *Chryseobacterium* species
9. *Citrobacter* species [*Citrobacter diversus*, *C. freundii*, *C. koseri* and others]
10. *Clostridium* species
11. *Enterobacter* species [*Enterobacter aerogenes*, *E. cloacae*, and others]
12. *Enterococcus* species [*Enterococcus faecalis* (also known as *Streptococcus faecalis*), *E. faecium*, and other *Enterococcus* species]
13. *Escherichia coli*
14. *Flavobacterium* species
15. *Haemophilus* species [*Haemophilus influenzae* and others]
16. *Klebsiella* species [*Klebsiella oxytoca*, *K. pneumoniae* and others]
17. *Listeria monocytogenes*
18. *Moraxella* species [*Moraxella catarrhalis* (also known as *Branhamella catarrhalis*) and others]
19. *Neisseria* species [*Neisseria meningitidis*, *N. gonorrhoeae* and others]
20. *Pasteurella* species
21. *Prevotella* species
22. *Proteus* species [*Proteus mirabilis*, *P. vulgaris* and others]
23. *Providencia* species [*Providencia rettgeri*, and others]
24. *Pseudomonas* species [*Pseudomonas aeruginosa* and others]
25. *Ralstonia* species
26. *Salmonella* species
27. *Serratia* species [*Serratia liquefaciens*, *S. marcescens* and others]
28. *Staphylococcus coagulase positive* [*aureus*]
29. *Stenotrophomonas maltophilia*
30. *Streptococcus* species [including *Streptococcus* Group A, *Streptococcus* Group B, *Streptococcus* Group D, *Streptococcus pneumoniae*, *Streptococcus Milleri* and others]

## Appendix D – Surgery Codes for Item 43. (For Infants Born in 2017)

### Head and Neck Surgery

- S101 Tracheostomy
- S102 Cricoid split
- S103 Ophthalmologic surgery OTHER than laser or cryosurgery for ROP
  - *Note: Record ROP surgery in Item 42c. Do not record ROP surgery in Item 43. Other Surgery.*
- S104 Cleft lip or palate repair
- S105 Branchial cleft sinus excision
- S106 Thyroglossal duct excision
- S107 Palliative or definitive repair of choanal atresia
- S108 Mandibular (jaw) distraction
- S109 Craniotomy
- S100 Other head and neck surgery requiring general or spinal Anesthesia  
**(Description required)**

### Thoracic Surgery

- S201 Tracheal Resection
- S202 Aortopexy
- S203 Tracheoesophageal atresia and/or fistula repair
- S204 Thoracoscopy (with or without pleuridesis/pleurectomy)
- S205 Thoracotomy (with or without pleural or lung biopsy)
- S206 Pneumonectomy, lobectomy or partial lobectomy
- S207 Resection of pulmonary sequestration (intrathoracic or extrathoracic)
- S208 Resection of mediastinal mass
- S209 Resection of chest wall
- S210 Bronchoscopy (with or without biopsy)
- S211 Esophagoscopy (with or without biopsy)
- S212 Surgery for Congenital Cystic Adenomatoid Malformation of the Lung
- S213 Lung transplant
- S214 Sternal closure
- S200 Other thoracic surgery requiring general or spinal anesthesia **(Description required)**

### Abdominal and Gastro-Intestinal Surgery

- S301 Rectal biopsy with or without anoscopy
- S302 Laparoscopy (diagnostic, with/without biopsy)
  - *Note: If the infant has NEC surgery, record all applicable codes in Item 43. Other Surgery even if Item 40b. NEC surgery, has already been checked, "Yes".*
- S303 Laparotomy (diagnostic or exploratory, with/without biopsy)
- S304 Fundoplication
- S305 Pyloromyotomy
- S306 Pyloroplasty
- S307 Ostomy creation (with or without fistula creation)
- S308 Small bowel resection
- S309 Large bowel resection
- S310 Duodenal Atresia/Stenosis/Web Repair
- S311 Jejunal, ileal, or colonic atresia repair (or repair of multiple intestinal atresias)
- S312 Excision of Meckel's diverticulum
  
- S313 Drainage of intra-abdominal abscess (not as primary treatment for NEC, see code S333).
- S314 Surgery for meconium ileus

- S315 Excision of omphalomesenteric duct or duct remnant
- S316 Gastroschisis repair (primary or staged)
- S317 Omphalocele repair (primary or staged)
- S318 Lysis of adhesions without other procedure
- S319 Repair of imperforate anus (with or without vaginal, urethral, or vesicle fistula)
- S320 Pull through for Hirschsprung's disease (any technique)
- S321 Pancreatectomy (partial, near total or total)
- S322 Partial/complete splenectomy or splenorrhaphy
- S323 Resection of retroperitoneal tumor
- S324 Resection of sacrococcygeal tumor
- S325 Repair of diaphragmatic hernia
- S326 Plication of the diaphragm
- S327 Gastrostomy tube/jejunostomy tube
- S328 Upper endoscopy (stomach or duodenum, with or without biopsy)
- S329 Colonoscopy/sigmoidoscopy
- S330 Takedown of ostomy and/or reanastomosis of bowel (small or large bowel)
- S331 Ladd's or other procedure for correction of malrotation
- S332 Appendectomy
- S333 Primary peritoneal drainage for NEC, suspected NEC, or intestinal perforation (If infant subsequently has other applicable surgical procedures, code those also.)
- S334 Anoplasty
- S335 Kasai procedure
- S336 Liver biopsy done during laparotomy or laparoscopy (includes wedge or needle techniques)
- S337 Umbilical hernia repair
- S300 Other abdominal surgery requiring general or spinal anesthesia **(Description required)**

#### **Genito-Urinary Surgery**

- S401 Cystoscopy (diagnostic, with or without biopsy)
- S402 Adrenalectomy
- S403 Nephrectomy
- S404 Nephrostomy
- S405 Urteterostomy
- S406 Resection of urachal cyst
- S407 Cystostomy
- S408 Closure of bladder exstrophy
- S409 Resection of posterior urethral valves
- S410 Inguinal hernia repair
- S411 Orchidopexy
- S412 Orchiectomy
- S413 Drainage or removal of ovarian cyst
- S414 Oopherectomy (partial or complete)
- S416 Pyeloplasty
- S417 Renal transplant
- S400 Other genitourinary surgery requiring general or spinal anesthesia **(Description required)**

#### **Open Heart or Vascular Surgery**

- S501 Vascular Ring division
- S502 Repair of coarctation of the aorta
- S503 Repair of major vascular injury

- S504 Repair or palliation of congenital heart disease
- S505 Heart transplant
- S506 Implanted pacemaker (permanent-do not use code for temporary pacemaker)
- S500 Other open heart or vascular surgery requiring general or spinal anesthesia  
**(Description required)**

#### **Diagnostic or Interventional Cardiac Catheterization**

- S601 Diagnostic cardiac catheterization
- S602 Interventional catheterization with balloon septostomy
- S603 Interventional catheterization with aortic valvuloplasty
- S604 Interventional catheterization with pulmonary valvuloplasty
- S600 Other interventional catheterization requiring general or spinal anesthesia  
**(Description required)**

#### **Skin and Soft Tissue Surgery**

- S700 Skin or soft tissue surgery requiring general or spinal anesthesia  
**(Description required)**

#### **Musculo-Skeletal System Surgery**

- S800 Other musculoskeletal surgery requiring general or spinal anesthesia  
**(Description required)**

#### **Central Nervous System Surgery**

- S901 Ventriculoperitoneal or other ventricular shunt
- S902 External ventricular drain
- S903 Ventricular drain with reservoir placement or removal
- S904 Meningocele or myelomeningocele repair
- S905 Encephalocele repair
- S900 Other central nervous system surgery requiring general or spinal anesthesia  
**(Description required)**

#### **Fetal Surgery (record if fetal surgery was done at your hospital or another hospital)**

- S1000 Fetal surgery **(Description required)**

#### **Conjoined Twins Surgery**

- S1101 Separation of conjoined twins

## Appendix E – Birth Defects for Item 49. (For Infants Born in 2017)

The following Birth Defect Codes require a detailed description in the space provided for Item 49 on the Admission / Discharge Form:

Code 100 - Other Lethal or Life Threatening Defects not listed on the form  
Code 150 - Other Central Nervous System Defects  
Code 200 - Other Cardiac Defects  
Code 300 - Other Gastro-Intestinal Defects  
Code 400 - Other Genito-Urinary Defects  
Code 504 - Other Chromosomal Anomaly  
Code 601 - Skeletal Dysplasia  
Code 605 - Inborn Error of Metabolism  
Code 800 - Other Pulmonary Defects  
Code 900 - Other Vascular or Lymphatic Defects

### **The following conditions should NOT be coded as Major Birth Defects:**

1. Cleft Lip without Cleft Palate
2. Club Feet
3. Congenital Dislocation of the Hips
4. Extreme Prematurity
5. Fetal Alcohol Syndrome
6. Hypospadias
7. Hypothyroidism
8. Intrauterine Growth Retardation
9. Intrauterine Infection
10. Limb Abnormalities
11. Patent Ductus Arteriosus
12. Persistent Pulmonary Hypertension (PPHN)
13. Polydactyly
14. Pulmonary Hypoplasia (use code 401 for bilateral renal agenesis or 604 for oligohydramnios sequence, if applicable)
15. Small Size for Gestational Age
16. Syndactyly

### **Other Lethal or Life Threatening Birth Defects**

- 100 Other lethal or life threatening birth defects, which are not listed below (for instructions, see definition of Item 49 in the 2017 Manual of Definitions).

### **Central Nervous System Defects**

- 101 Anencephaly  
102 Meningomyelocele  
103 Hydranencephaly  
104 Congenital Hydrocephalus  
105 Holoprosencephaly  
106 Microcephaly  
107 Hypopituitary

- 108 Septic Optic Dyplasia
- 109 Encephalocele
- 150 Other lethal or life threatening CNS Defect not listed above **(Description required)**

### **Congenital Heart Defects**

- 200 Other lethal or life threatening Congenital Heart Defects not listed below **(Description required)**
- 201 Truncus Arteriosus
- 202 Transposition of the Great Vessels
- 203 Tetralogy of Fallot
- 204 Single Ventricle
- 205 Double Outlet Right Ventricle
- 206 Complete Atrio-Ventricular Canal
- 207 Pulmonary Atresia
- 208 Tricuspid Atresia
- 209 Hypoplastic Left Heart Syndrome
- 210 Interrupted Aortic Arch
- 211 Total Anomalous Pulmonary Venous Return
- 212 Coarctation of the Aorta
- 213 Atrial septal defect (ASD)
- 214 Ventricular septal defect (VSD)
- 215 Arrhythmias
- 216 Ebsteins Anomaly
- 217 Pericardial Effusion
- 218 Pulmonary Stenosis
- 219 Hypertrophic Cardiomyopathy
- 220 Penatology of Cantrell (Thoraco-Abdominal Ectopia Cordis)

### **Gastro-Intestinal Defects**

- 300 Other lethal or life-threatening GI Defects not listed below **(Description required)**
- 301 Cleft Palate
- 302 Tracheo-Esophageal Fistula
- 303 Esophageal Atresia
- 304 Duodenal Atresia
- 305 Jejunal Atresia
- 306 Ileal Atresia
- 307 Atresia of Large Bowel or Rectum
- 308 Imperforate Anus
- 309 Omphalocele
- 310 Gastroschisis
- 311 Pyloric Stenosis
- 312 Annular Pancreas
- 313 Biliary Atresia
- 314 Meconium Ilius
- 315 Malrotation Volvulu

**Genito-Urinary Defects**

- 400 Other lethal or life-threatening Genito-Urinary Defects not listed below **(Description required)**
- 401 Bilateral Renal Agenesis
- 402 Bilateral Polycystic, Multicystic, or Dysplastic Kidneys
- 403 Obstructive Uropathy with Congenital Hydronephrosis
- 404 Exstrophy of the Urinary Bladder

**Chromosomal Abnormalities**

- 501 Trisomy 13
- 502 Trisomy 18
- 503 Trisomy 21
- 504 Other Chromosomal Anomaly **(Description Required)**
- 505 Triploidy

**Other Birth Defects**

- 601 Skeletal Dysplasia **(Description Required)**
- 602 Congenital Diaphragmatic Hernia
- 603 Hydrops Fetalis with anasarca and one or more of the following: ascites, pleural effusion, pericardial effusion
- 604 Oligohydramnios sequence including all 3 of the following:
  - (1) Oligohydramnios documented by antenatal ultrasound 5 or more days prior to delivery.
  - (2) Evidence of fetal constraint on postnatal physical exam (such as Potter's facies, contractures, or positional deformities of limbs)
  - &
  - (3) Postnatal respiratory failure requiring endotracheal intubation and assisted ventilation.
- 605 Inborn Error of Metabolism **(Description Required)**
- 606 Myotonic Dystrophy requiring endotracheal intubation and assisted ventilation
- 607 Conjoined Twins
- 608 Tracheal Agenesis or Atresia
- 609 Thanatophoric Dysplasia Types 1 and 2
- 610 Hemoglobin Barts

**Pulmonary Abnormalities**

- 800 Other lethal or life-threatening Pulmonary Defects not listed below **(Description required)**
- 801 Congenital Lobar Emphysema
- 802 Congenital Cystic Adenomatoid Malformation of the Lung
- 803 Sequestered Lung
- 804 Alveolar Capillary Dysplasia

### **Vascular and Lymphatic Defects**

- 900 Other Vascular or Lymphatic not listed below (DESCRIBE)
- 901 Cystic Hygroma
- 902 Hemangioma
- 903 Sacrococcygeal Teratoma
- 904 Cerebral AV Malformation

### **Other Diagnoses**

- 121 Hematologic
- 122 Hemolytic Disease of the Newborn (Not ABO)

## Appendix F - OSHPD FACILITY CODES

01/31/17	02/27/17			03/31/17	04/27/17			05/31/17	06/27/17		

To use this chart: Find the Date of Birth in the month column.  
 The correctly calculated Date of Day 28 is to the right of the Date of Birth.  
 Example: If the Date of Birth is 4/23/17, then the Date of Day 28 is 5/20/17.

To use this chart: Find the Date of Birth in the month column.  
 The correctly calculated Date of Day 28 is to the right of the Date of Birth.  
 Example: If the Date of Birth is 4/23/17, then the Date of Day 28 is 5/20/17.

## Appendix K - HRIF Medical Eligibility Criteria

# CCS HRIF PROGRAM MEDICAL ELIGIBILITY CRITERIA

Data should be collected on infants/children under three years of age who meet California Children’s Services (CCS) HRIF medical eligibility criteria **and** who met CCS medical eligibility criteria for Neonatal Intensive Care Unit (NICU) care **OR** had a CCS eligible medical condition at some time during their stay in a CCS-approved NICU, even if they were never a CCS client. **Infants are medically eligible for the HRIF Program when the infant:**

**Met CCS medical eligible criteria for NICU care, in a CCS-approved NICU, regardless of length of stay, (as per Number Letter 05-0502, Medical Eligibility in a CCS-approved NICU). NOTE:** Medical eligibility includes neonates who require direct admit to a CCS-approved PICU, who are never admitted to a CCS-approved NICU, but who otherwise meet all medical eligibility criteria for HRIF services.

**OR** **Had a CCS eligible medical condition in a CCS-approved NICU, regardless of length of stay, (as per California Code of Regulations, Title 22, Section 41800 through 41872, CCS Medical Eligibility Regulations).**

**AND MET ONE OF THE FOLLOWING:**

**Birth weight ≤ 1500 grams or the gestational age at birth < 32 weeks.**

**OR**

**Birth weight > 1500 grams and the gestational age at birth ≥ 32 weeks and one of the following criteria was met during the NICU stay:**

- A. pH less than 7.0 on an umbilical blood sample or a blood gas obtained within one hour of life) or an Apgar score of less than or equal to three at five minutes or an Apgar score less than 5 at 10 minutes.
- B. An unstable infant manifested by hypoxia, acidemia, hypoglycemia and/or hypotension requiring pressor support.
- C. Persistent apnea which required caffeine or other simulant medication for the treatment of apnea at discharge.
- D. Required oxygen for more than 28 days of hospital stay and had radiographic finding consistent with chronic lung disease (CLD).
- E. Infants placed on extracorporeal membrane oxygenation (ECMO).
- F. Infants who received inhaled nitric oxide greater than four hours, and/or treatment during hospitalization with sildenafil or other pulmonary vasodilatory medications for pulmonary hypertension.
- G. History of observed clinical or electroencephalographic (EEG) seizure activity or receiving antiepileptic medication(s) at time of discharge.
- H. Evidence of intracranial pathology, including but not limited to, intracranial hemorrhage (grade II or worse), white matter injury including periventricular leukomalacia (PVL), cerebral thrombosis, cerebral infarction or stroke, congenital structural central nervous system (CNS) abnormality or other CNS problems associated with adverse neurologic outcome.
- I. Clinical history and/or physical exam findings consistent with neonatal encephalopathy.
- J. Other documented problems that could result in neurologic abnormality, such as: history of CNS infection, documented sepsis, bilirubin at excessive levels concerning for brain injury as determined by NICU medical staff, history of cardiovascular instability as determined by NICU medical staff due to: sepsis, congenital heart disease, patent ductus arteriosus (PDA), necrotizing enterocolitis, other documented conditions.

**HRIF Program Referral Process:**  
*Communication is between the CCS-approved NICU and HRIF Program.*

1. The discharging/referring NICU/Hospital will refer eligible infants to the HRIF Program at the time of discharge to home, and complete the “Referral/Registration (RR) Form” via the **web-based** HRIF-QCI Reporting System.
2. The discharging/referring NICU/Hospital or HRIF Program will submit a Service Authorization Request (SAR) to local CCS Office. (Service Code Group [SCG] 06, should be requested).  
<http://www.dhcs.ca.gov/services/ccs/cmsnet/Pages/SARTools.aspx>
3. The discharging/referring NICU/Hospital will send a copy of the Discharge Summary to the HRIF Program.

**Medical eligibility for the HRIF Program is determined by the County CCS Program or Regional Office staff. The CCS Program is also required to determine residential eligibility. As the HRIF Program is a diagnostic service, there is no financial eligibility determination performed at the time of referral to CCS. However, insurance information shall be obtained by CCS. An infant or child is eligible for the HRIF Program from birth up to 3 years of age.**

## **CPQCC Data Center**

### **CPQCC Satellite NICUs**

Version 16.1, April 28, 2016

Dear CPQCC Participant,

You are receiving this memo because you are one of the nine Satellite NICUs participating in CPQCC. We are addressing the special circumstances affecting Satellite NICUs and the implications for the CPQCC data collection and reporting.

These changes were first introduced into the CPQCC Network Database on March 1, 2010<sup>1</sup>, and updated on April 16, 2010<sup>2</sup>, January 24, 2011<sup>3</sup>, March 3, 2012<sup>4</sup> and April 28, 2016<sup>5</sup>.

## I. **Satellite NICUs Definition**

Starting with the 2010 CPQCC Network Database, a **Satellite NICU** (or an Embedded NICU) is defined as a NICU owned and managed by one organization (**Main NICU**) located within a delivery facility owned and managed by another hospital (**Co-Located Hospital**).

CPQCC uses OSHPD IDs to capture an infant's location: birth location (birthlocation, Item 7c and C.32), transport location (xferlocation, Item 59), hospital that discharged infant home (lastHospital, Item 52), referring location (T\_referringHospital, Item C.30) and previous transport referring hospital (T\_prevHospital, Item C.31). As for most Satellite NICUs, OSHPD reporting is consolidated with OSHPD reporting of the main NICU, Satellite NICUs typically do not have their own OSHPD ID. Starting in May 2012, in order to capture correct infant location variables we introduced “fake” OSHPD IDs for all Satellite NICUs in the CPQCC Manual of Definitions.<sup>3</sup>

Note that we currently use “fake” OSHPD IDs for military hospitals, birthing centers that do not report to OSHPD and non-hospital or out-of-state hospital locations as well.<sup>3</sup> We continue to update this list according to member requests for the specific Satellite NICU setup or member requests for the addition of non-CPQCC member Satellite NICUs of their main NICU.<sup>5</sup>

**Table 1: CPQCC Satellite NICUs** below shows for each of the 11 Satellite NICUs that are currently incorporated into the CPQCC data collection, the associated main NICU and the hospital where the Satellite is located. The location codes (OSHPD IDs or “fake” OSHPD IDs) are shown in parenthesis for each location.

**Table 1: CPQCC Satellite NICUs**

SATELLITE NICU	MAIN NICU	CO-LOCATED HOSPITAL	COMMENTS
Children's Hospital of Orange County (CHOC) at Mission (304113)	Children's Hospital of Orange County, CHCC (300032)	Mission Hospital Regional Medical Center (301262)	
Lucille Packard Children's Special Care Nursery at Sequoia Hospital, LPCH (750002)	Lucille Packard Children's Hospital at Stanford, LPCH (434040)	Sequoia Hospital (410891)

Valley Children's Hospital at Adventist Medical Center, Hanford (750008) <sup>4</sup>	Children's Hospital Central California, CHCC (204019)	Adventist Medical Center, Hanford (160787)	<b>Non-CPQCC Member</b>
Valley Children's Hospital at Mercy Medical Center, Merced (750009) <sup>5</sup>	Children's Hospital Central California, CHCC (204019)	Mercy Medical Center, Merced (240942)	<b>Non-CPQCC Member</b>

## II. Coding Instructions in [www.cpqccdata.org](http://www.cpqccdata.org)

### A. Item 7a. Location of Birth<sup>1</sup>

- 1. Inborn Infant.** For Satellite NICUs the Inborn option is not available.
- 2. Infant Born at Co-Located Hospital.** Infants who are delivered at the Co-Located Hospital and then transferred to the Satellite NICU are considered infants **Born at the Co-Located Hospital**.

Select **Born at Co-Located Hospital (Satellite NICUs Only)** from the drop-down box<sup>5</sup> if your center is a Satellite NICU and the infant was delivered in the Co-Located hospital. This includes any location within the Co-Located hospital, e.g., Labor & Delivery, Antepartum unit,

Emergency Room.

For non-Satellite NICUs, the “Infant born at Co-Located Hospital” is not available.

**3. Outborn Infant.** Select **Outborn** if the infant was born in another facility **OR** at any location outside the Co-Located hospital **OR** home at any time after birth. Any infant requiring ambulance transport is considered Outborn. When completing the Admission/Discharge data forms for Outborn infants, use all information available from the hospital from which the infant was transported to your center as well as from your own center. Specifically:

- **Outborn** should always be used for an **infant who was previously home**.
- Infants who are **delivered at the Main NICU and then transported to a Main NICU’s Satellite NICU** are considered Outborn infants for the Satellite NICU.

Satellite NICU infants who are born at the Co-Located hospital are coded as follows:

7. a) **Location of Birth**

*Note: For infants who were previously home, always check Outborn, even if the infant was born at your hospital or was born at the co-located hospital (for satellite NICUs only).*

b) **Age in Days at Admission to your NICU**

c) **Select hospital of birth for outborn infants**  
 [Narrow list](#) [Reset](#) [Click here for help with narrow list tool](#)

8. **Hospital Admission History**  
*Note: The Hyperbilirubinemia Items 50 to 52 are activated ONLY IF the infant Was Home after Birth (Item 8a).*

a) **Discharged Home after Birth?**

b) **NICU Re-Admission Status after PDH**

- **Item 7a.** If a Satellite NICU is entering data for an infant born at the Co-Located Hospital who is then transferred to the Satellite NICU, code the infant as **Born at Co-Located Hospital** in Item 7a. Location of Birth.

**NOTE:** For non-Satellite NICUs the last option (Born at Co-Located Hospital) is not available; for Satellite NICUs the Inborn option is not available.

- **Item 7b.** For Small Babies, Item 7b. Age in Days at Admission to the Satellite NICU is set to 1.
- **Item 7c.** Once “Born at Co-Located Hospital” in Item 7a is selected, the system automatically sets “Item 7c. Select the hospital of birth” to the Co-Located Hospital’s OSHPD ID number. The birth location is grayed out, and it cannot be changed by the Data Contact.

### B. CPeTS Form: Items C.30, C.31, 52 and 59 - OSHPD List<sup>2, 4</sup>

After the initial system update that introduced revised data capture for Satellite NICUs, it was brought to our attention that Main NICUs wanted to be able to distinguish an infant that was transported to the Co-Located Hospital’s Well-baby nursery FROM an infant that was transported to the Satellite NICU at the Co-Located Hospital. Prior to the systems update in January 2011, Data Contacts were instructed to use the OSHPD ID of the Co-Located Hospital regardless of the location of transport.

Subsequently, we updated the hospital code list for the following Items: **C.30, C.31, 52 and 59**. Specifically, we used the “fake” OSHPD ID codes created for the Satellite NICUs (see [Table 1: CPQCC Satellite NICUs](#)).<sup>5</sup> This change did not affect the OSHPD list for the Birth Location (Items C.32 and 7C).

Finally, note that the CPeTS form supports easy data entry of the referring location for infants born at a Co-Located hospital (see screenshot below)<sup>5</sup>.

The screenshot shows the 'Referral Process' form with the following fields and annotations:

- C.30 Referring Hospital:** A dropdown menu showing 'Demo Center C (Satellite of A located at D) (000002)'. Below it are links: 'Click here to copy the Birth Hospital', 'Click here to set to Satellite if Birth Hospital is a Hosting Location for a Satellite Unit and if the Satellite Unit made the referral', and 'Use this link to set item C.30 to the the satellite NICU of the main NICU based on the location of birth.' Buttons for 'Narrow list' and 'Reset' are present.
- C.31 a) Was the infant previously transported?:** A dropdown menu with 'No' selected.
- b) Previous Transport Referring Hospital:** A dropdown menu with 'Not Applicable (777777)'. Below it are links: 'Click here to copy the Birth Hospital', 'Click here set to Satellite if Birth Hospital is a Hosting Location for a Satellite Unit and if the Satellite Unit made the previous referral', and 'Use this link to set item C31 to the satellite NICU of the main NICU based on the location of birth.' Buttons for 'Narrow list' and 'Reset' are present.
- C.32 Location of Birth:** A dropdown menu showing 'Demo Center D (000003)'. Below it are links: 'Click here to copy the Referring Hospital or the Hosting Location of the Referring Satellite Unit of your NICU', 'Click here to copy the Referring Hospital of the Previous Transport or the Hosting Location of the Referring Satellite Unit of your NICU', and 'Use these links to set item C.32 to the co-located hospital if the referring location or the referring location of the previous transport is a satellite NICU co-located at the birth location.' Buttons for 'Narrow list' and 'Reset' are present.
- C.33 Transport Team On-Site Leader:** A dropdown menu with 'Sub-specialist MD' selected.

Here are situational examples of how the systems update affects data entry:

SITUATION	SITUATION A: Infant is born at the Co-Located Hospital, is transferred to the Satellite NICU, then transported to the Main NICU, and then back-transported to the Satellite NICU.		SITUATION B: Infant is born at the Co-Located Hospital, is transferred to a non-CPQCC member Satellite NICU, then transported to the Main NICU, and then back-transported to the non-CPQCC member Satellite NICU.	
2015/2016 ITEM <sup>5</sup>	Main NICU enters data	Satellite NICU enters data	Main NICU enters data	Non-CPQCC Satellite NICU does not enter data
C.30 REFERRING HOSPITAL (OSHPD)	Satellite NICU	N/A; CPeTS Form not required	Non-CPQCC Satellite NICU	N/A
C.31B. PREVIOUS TRANSFER REFERRING HOSPITAL (OSHPD)	Not applicable	N/A; CPeTS Form not required	Not Applicable	N/A
C.32. LOCATION OF BIRTH (OSHPD) -- NO CHANGE	Co-Located Hospital	N/A; CPeTS Form not required	Co-Located Hospital	N/A
7A. LOCATION OF BIRTH	Outborn	Born at Co-Located Hospital	Outborn	N/A
7C. BIRTH HOSPITAL (OSHPD) -- NO CHANGE	Co-Located Hospital	Co-Located Hospital	Co-Located Hospital	N/A
59. HOSPITAL	Satellite NICU	Main NICU	Non-CPQCC	N/A

SITUATION	<b>SITUATION A:</b> Infant is born at the Co-Located Hospital, is transferred to the Satellite NICU, then transported to the Main NICU, and then back-transported to the Satellite NICU.		<b>SITUATION B:</b> Infant is born at the Co-Located Hospital, is transferred to a non-CPQCC member Satellite NICU, then transported to the Main NICU, and then back-transported to the non-CPQCC member Satellite NICU.	
TRANSPORTED TO (OSHPD)			Satellite NICU	

For Situation B (Infant is born at the Co-Located Hospital, is transferred to a non-CPQCC member Satellite NICU, then transported to the Main NICU, and then back-transported to the non-CPQCC member Satellite NICU), if available member Centers should enter the “fake” **OSHPD ID of the non-CPQCC Satellite NICU**. If no such code is available, the **OSHPD code Other In-Patient Setting – California (890099)** should be used.

### C. CCS Supplemental Form<sup>1</sup>

Starting with the 2010 CCS Supplemental Form, the following revisions were implemented:

- In Section A, Total Live Births by Birth weight in your Center is replaced by **Total Live Births from the Co-Located Hospital**.<sup>5</sup>
- In Section A, Delivery Room Deaths is replaced by **Delivery Room Deaths from the Co-Located Hospital**.<sup>5</sup>
- In Section B, Inborn admissions to your NICU is replaced by **Infants born at Co-Located Hospital**.<sup>5</sup>
- In Section B, Outborn<sup>4</sup> Admissions to your NICU<sup>5</sup> should include infants who are transported into your NICU from all hospitals other than the Co-Located hospital.<sup>5</sup>

- In Section D, Total Live Births by Gestational in your Center is replaced by **Total Live Births from by Gestational Age at Co-Located Hospital.**<sup>5</sup>
- Per the request of the CPQCC Data Center, CCS released a revised support letter on [Date]<sup>5</sup> addressed to the CCS-approved Satellite NICUs to help facilitate the retrieval and reporting of data from the Co-Located Hospital. The CPQCC Data Center will continue to facilitate this process every year. Below is an excerpt:<sup>5</sup>

“The CPQCC Data Center has informed us that some Co-Located Hospital administrations do not grant their local NICU data reporting team access to certain required data elements. These locally restricted elements include: total live births by birthweight AND gestational age, delivery room deaths by birthweight, and inborn admissions by birthweight AND gestational age to the NICU. Every CCS-approved NICU operates in a CCS-approved Co-Located Hospital. Therefore, there are no HIPAA compliance issues with reporting these data.”<sup>5</sup>

CCS has worked directly with each Satellite NICU to retrieve the data from the Co-Located Hospital and continues in this process.<sup>5</sup>

This letter is located on the CPQCC Data Center/Downloads page (link below) and can be used<sup>5</sup> to help facilitate the timely submission of the CCS Supplemental Form by the April 1<sup>st</sup> deadline if requested by Centers.
